This is a map of the wheel-ruts of modern English. Etymologies are not definitions; they're explanations of what our words meant and how they sounded 600 or 2,000 years ago.

The dates beside a word indicate the earliest year for which there is a surviving written record of that word (in English, unless otherwise indicated). This should be taken as approximate, especially before about 1700, since a word may have been used in conversation for hundreds of years before it turns up in a manuscript that has had the good fortune to survive the centuries.

The basic sources of this work are Weekley's "An Etymological Dictionary of Modern English," Klein's "A Comprehensive Etymological Dictionary of the English Language," "Oxford English Dictionary" (second edition), "Barnhart Dictionary of Etymology," Holthausen's "Etymologisches Wörterbuch der Englischen Sprache," and Kipper and Chapman's "Dictionary of American Slang." **A full list of print sources used in this compilation can be found here.**

Since this dictionary went up, it has benefited from the suggestions of dozens of people I have never met, from around the world. Tremendous thanks and appreciation to all of you.

FTD/Estimated Payments Discrepancy Notice - Balance Due			
Why We Are Writing You			
We found that the amount credited to your account as Total Federal Tax Deposits differs from the amount reported on your tax return for the above tax period. You now have an outstanding balance on your account of \$18,057.02.			
Because of this discrepancy, none of the \$7,758.00 you requested, is available to apply to your next tax period.
